

SONAR Quick Rates Chrome Extension

SONAR's market intelligence directly in your browser

The new Quick Rates Extension brings SONAR's market intelligence directly into your browser, giving you the speed and confidence to quote smarter without breaking your workflow.

No more toggling between platforms or wasting time on multiple searches. With the SONAR Quick Rate Tool, everything you need for fast, data-driven quoting lives in one place... your browser.

Key Features & Benefits

- ❖ **Lane Search Made Simple** - Instantly look up spot rates for any origin-destination pair, right from your browser.
- ❖ **Broker Guidance & Market Conditions** - Access real-time insights to position your quotes competitively.
- ❖ **Built-in Margin Calculator** - See Flat rates and quickly measure profitability using live inputs.
- ❖ **Fast, Informed Quoting** - Save time and improve accuracy in your daily workflow.

How to Install in 5 Easy Steps

- ❖ Open the [Google Chrome Web Store](#).
- ❖ Search for "SONAR Quick Rates" or "Quick Rates".
- ❖ Click **Add to Chrome** and confirm the installation.
- ❖ Once installed, look for the SONAR icon in your browser toolbar.
- ❖ **Refresh an open browser window** and click the  icon on the right to log in with your SONAR credentials and start quoting instantly.
