

Risk Management

Deeper Visibility Into Compliance, Risk and Performance

The Bannon Report & SearchCarriers

Protect your business and make smarter, safer decisions with two powerful new integrations accessible directly in SONAR.

BANNON REPORT

The Bannon Report transforms carrier and broker vetting with real-time fraud detection, 18,000+ flagged entities, and predictive scoring to help you trust the data and protect your business. Ranking risk from “Safe to Proceed” to “Do Not Use.”

- ❖ Built for brokers, carriers, and shippers across nearly 3 million U.S. companies.
- ❖ Live risk assessments powered by verified data and expert analysis.
- ❖ Quickly assess partners with an easy-to-understand 4-tier risk ranking.
- ❖ 100+ data points analyzed per record, including safety, inspections, insurance, and authority status.

SearchCarriers 🔍

SearchCarriers provides comprehensive access to cleaned, vetted, and standardized motor carrier data. Whether you’re researching potential partners or verifying compliance, SearchCarriers helps you make confident decisions.

- ❖ Search by company name, DOT/MC number, location, and other key criteria.
- ❖ View inspection histories, safety ratings, and compliance records.
- ❖ Analyze carrier performance, trends, and risk indicators.
- ❖ Stay informed with the latest status changes and carrier information from FMCSA and more

Find The Bannon Report and SearchCarriers under the Risk Management section of SONAR. Stay ahead of risk, protect your network, and move freight with confidence.
